

**Clarification #1**  
**Request for Information about upcoming 300 Km of 400 kV**  
**Electricity Transmission Line Works Contract under Electricity**  
**Transmission Project in Nepal**

SN	Questions	Response of Millennium Challenge Account-Nepal
1	Is this opportunity limited to only Indian and Nepalese contractors or is open for Global contractors?	The opportunity will be available for all eligible contractors satisfying MCC eligibility requirements and not limited only to Indian and Nepalese Contractors.
2	Can we submit the response in JV with another Company, and if considered we will subsequently bid in JV with the same Company?	At this stage, please note that this Request for Information is not a shortlisting process so you don't need to form a JV for submitting your response. We are seeking only information from prospective Contractors and incorporate the feedback from the market into our bidding process. In such way, we expect that we can launch a bidding process which complies with the availability in the market.
3	will it be possible to get information, as available, on the Nepal projects? We are an international management consulting company in Washington, DC and are currently trying to assist the country with hydro project implementation.	The available information on the projects that MCA-Nepal is or will be implementing are described at the following link: <a href="https://mcanp.org/">https://mcanp.org/</a>
