

MILLENNIUM CHALLENGE ACCOUNT NEPAL (MCA-NEPAL)

Addendum # 2
Date: 24 May 2019

Procurement of Consultant Services for 27 Kilometers Pilot Engineering Designs, Initial Environmental Examination (IEE), Resettlement Action Plan (RAP) Development, RAP Implementation and Construction Supervision for Pilot Works

Bid Ref: MCA-N/RMP/QCBS/001

This Addendum # 2 is issued to modify the scope of work in the Request for Expression of Interest (REOI) for **Procurement of Consultant Services for 27 Kilometers Pilot Engineering Designs, Initial Environmental Examination (IEE), Resettlement Action Plan (RAP) Development, RAP Implementation and Construction Supervision for Pilot Works** which was issued on 15 April 2019.

This Addendum # 2 clarifies the intention of MCA-Nepal to add an Option in the Request for Proposals (RFP) to be issued to the short-listed consultants, that will allow MCA-Nepal to amend/increase the scope of work for this procurement. Consequently, a new paragraph is added at the end of the Request for Expression of Interest document as follows:

"MCA-Nepal may add an Option in the Request for Proposals document to be exercised at the discretion of MCA-Nepal only. Under this Option, MCA-Nepal (considering the procurement requirements, funding, performance of the consultant etc) may amend/increase the scope of work from 27 Km to about 127 Km for Engineering Designs, Initial Environmental Examination (IEE), Resettlement Action Plan (RAP) Development, RAP Implementation and Construction Supervision for Works. The Price of the Option, if exercised, will be negotiated using the same rates in the Contract and negotiating the corresponding level of effort. Alternatively, MCA-Nepal at its own discretion may decide not to exercise the Option and launch a separate procurement process for the Engineering Designs, Initial Environmental Examination (IEE), Resettlement Action Plan (RAP) Development, RAP Implementation and Construction Supervision for Works for the remaining 100 Km. Experience in similar contracts will be evaluated and based on the scope of works including the option of about 127 Km".

All other terms, conditions, instructions and information provided in the initial Request for Expression of Interest documents shall remain unchanged.
