Detailed information is provided in part 13 of the PPG.g) P13.1.5 states “Additional evidence of control may be found in the organizational history of the enterprise regardless of its current status. In some cases, a GOE may be privatized or otherwise reorganized in such a manner that it loses its status as a GOE. In other cases, a GOE may purportedly have been privatized, but continue to receive subsidies or other forms of support from a government to such a degree that it can effectively be considered to be controlled by the government”.h) Furthermore, “Evidence of control may also be assumed by MCC for enterprises from countries that have been <u>deemed non-market economies</u>¹ by either the US Department of Commerce or the World Trade Organization.”i) Regarding eligibility please also check the links on page 113 of the bidding document:
