1	Annex 1- Technical Specification SN 22, page 8	This is a request to kindly clarify whether the 'Rear View Dipping Mirror' mentioned in technical specification SN 22 is simply a rear view mirror as attached or also has rear view dimming functions. Any further information would be appreciated. Let us know for any other details.	Yes, this is a Rear-View Dimming Mirror. There was a spelling error and is corrected in the addendum#4. The requirement is “Mirrors – Electric door mirrors (left and right) * and auto dimming rear-view mirror”. The two electric door mirrors are required, however dimming function in a rear-view mirror is preferred but not a mandatory requirement.
