

# Key Environmental and Social Performance Requirements

## Outreach Event

Date: 30-Sept-2024

## ESP Requirements

- Government of Nepal Environmental Regulations – an EIA is required with an Environmental, Social, Health and Safety Management Plan (ESHSMP).
- MCC Environmental Guidelines – Category A project. MCC views projects in a holistic way and closely monitors adherence to Environmental Guidelines to ensure that the project is managing environmental/social impacts appropriately. An ESIA is required.
- IFC Performance Standards on Environmental and Social Sustainability

# Key Environmental and Social Risks and Impacts

- Soil erosion/land slides/slope failure.
- Pollution – air, water, noise
- Land Use Changes and Tree clearance.
- Impacts on birds.
- Impact on Aviation routes.
- Land acquisition, displacement and resettlement issues.
- Positive impacts

# ESP Compliance Requirements for the Contractor

- The Contractor is responsible for complying with IFC Performance Standards and MCC Environmental Guidelines.
- The Contractor is responsible for complying with all the mitigation requirements proposed in the EIA, ESIA, SESIA.
- Preparation of Contractor's Environment, Social, Health and Safety Management Plan (CESHSMP) based on ESHSMP prepared by MCA-Nepal, and get it approved by the Engineer and MCA-Nepal.
